

FOLD IT

Trendsetting and impressive

Steuler's new, exclusive, trend-oriented FOLD IT tile series again sets standards in the culture of bathing and home living. Inspired by the familiar techniques of folding and embossing paper, FOLD IT becomes a three-dimensional discovery that makes unconventional styling dreams come true in living rooms and baths.

Sweeping lines and dynamic angles distinguish the haptic design of these tiles. Their softly shimmering surfaces call to mind sheets of high-quality paper. A total of five modern, powdery colors convey a bright, warm look. The hues are mutually harmonized for perfectly combinable ensembles. Additionally, the color called "Spring" brings fresh accents to the predominantly warm gray and beige tones.

The gentle, wavy look of the basic tiles in the FOLD IT series can be excitingly combined with a graphic design component to create individualized room concepts that are full of character. To match the wall tiles,

which measure 25 by 50 cm, there are two color-coordinated wall mosaics which are glued on mesh-type net, as well as two corresponding mosaic mats made of stoneware for the floor.

To complete the series, there's also a 50 by 50 cm floor tile that produces a three-dimensional effect through its finely drawn lines and that has a darker color appealing contrasts with the lighter design of the wall tiles.

Wall tiles in: paper, powder, spring, clay, basalt

Floor tiles in: asphalt

Floor mosaic mats: spring, clay

Format:

25 x 50 cm (wall)

50 x 50 cm (floor)

25 x 50 cm (floor mosaic mats)
