

## Granada

### Feel-good warmth from the south

Granada is made for dreams and dreaming.

(Federico García Lorca, Spanish poet)

Gently rolling hills, mountains and fine sandy beaches – a unique landscape in which sun and snow meet amid breathtaking variety.

GRANADA is a fascinating picture which creates magical floors in subtle natural stone colours, like Jura white, beige, grey and black. Floor decorations, borders and mosaic mats in the different colour tones make for eye-catching details and liven up the floor design. Colour-coordinated plinths provide a perfect transition between floor and wall designs.

Wood, leather, modern carpets: GRANADA can be effortlessly combined with all sorts of different colours and materials. Light adds the perfect finishing touch to the Mediterranean design. You can integrate stainless steel framed LED lighting modules to create a gentle or a sophisticated atmosphere and create inimitable radiance.

GRANADA – pure comfort and southern flair for a refined living ambience. Timeless, individual and unmistakable.
