

Teardrop

A sea of water droplets

Water. An element of life and a natural force. Natural, invigorating, balancing – for pleasure, energy and personal well-being.

Like a sea of water droplets: TEARDROP is a complete room design for floors and walls which makes this particular experience feel real. Floor tiles in mother of pearl, opal, ruby and graphite deliberately underline the drop-shaped surface structure of this effective range. Borders, floor decorations and mosaic mats in the same colour tones enable varied designs for an extraordinary floor. Plinths in graphite and brushed stainless steel and stainless steel framed LED light modules add more individual highlights and exclusive accents.

Wall tiles in mother of pearl and grey set off the whole thing, creating a harmonious overall room design. Glass and stainless steel tile borders complete the modern wall design.

Modern, natural, yet different, TEARDROP is aimed at anyone looking for something extravagantly new and down-to-earth at the same time.

Size: 30 x 60 cm / 11.81 x 23.62 inch
